Getting a psychic reading can help you feel clearer and more focused when life and relationships feel overwhelming.

Receiving a healing brings balance and calming and will also help you feel clearer, more focused and back in control.

Hearing messages from a loved one on the other side can heal a heart and bring a sense of peace and love ongoing.

Her intension is always for you to feel more powerful to create change and seek further understanding of self, leading to a greater sense of ease in your overall life and purpose.

Also a Civil Funeral Celebrant, Toni-Anne is committed to supporting you throughout one of the toughest times in life, the passing of a loved one. She can help you create a celebration of who that person was in life and truly commemorate them so that you feel them present and feel good about this last and important ritual of farewelling those we love and share in this journey of life. Funeral inquiries will be followed up in person with arrangements to meet either at the centre or in your home, which ever you prefer.

She will also be leading workshops and meditations from time to time through the centre so be sure to make sure you are connecting to mailing lists and Facebook updates.

Toni-Anne is available for one hour, one on one appointment at Balanced Heart.
